

CRESTONE
STUDIO

At Crestone Studio, we specialize in creating quality cast stone products that blend the beauty and look of natural of stone with the precision of modern craftsmanship. Based in New York, our company combines age-old techniques with contemporary solutions to produce stonework that elevates the appearance and durability of any architectural project.

For us, collaboration is at the core of our process. We partner closely with clients to fully understand their unique project needs, ensuring every cast stone element we create aligns with their vision and architectural goals.

Inspired by New York City's rich architectural heritage, we take pride in delivering stonework that is not only beautiful but also engineered to last. With a focus on precision, quality, and design, we work closely with our clients to bring their visions to life, creating enduring quality work.

At Crestone Studio, we don't just work with stone—we bring your vision to life.

ABOUT US

MEET OUR TEAM

01

02

03

01
**JENNIFER
VEGA**
Finance and Marketing Manager

→ Jennifer plays a crucial role in overseeing all marketing strategies and financial operations within Crestone Studio. This dynamic position involves promoting our brand, managing financial growth, and ensuring smooth day-to-day administrative functions. With a keen eye for both marketing and financial development, Jennifer drives the company's success by optimizing operations and ensuring seamless execution across departments.

02
**DAMIAN
KRZYWONOS**
Operations Manager

→ Damian is key to ensuring smooth production and project execution at Crestone Studio. He oversees daily operations, aligns production timelines, and ensures materials are delivered on time. Damian is responsible for managing resources and maintaining efficiency across all projects. He works closely with clients to understand their vision, ensuring each project meets their expectations while keeping everything on track and running smoothly.

03
**WOJTEK
TYBOROWSKI**
Production Manager

→ Wojtek is responsible for overseeing and managing all aspects of production at Crestone Studio. From working hands-on in the shop to create molds, stones, and color matching, He ensures the highest quality standards are met. He is involved in every step of the daily production process, ensuring smooth operations and that all products meet our client's specifications. With attention to detail and a focus on efficiency, Wojtek ensures that the production process runs seamlessly from start to finish.

**WHY
CRESTONE STUDIO?**

→ **Architectural Reproduction Excellence**

We specialize in replicating architectural elements with precision and accuracy, ensuring that each cast stone unit meets the highest standards of quality and aesthetics.

→ **Efficiency And Timeliness**

Our streamlined production processes and commitment to prompt delivery allow us to meet tight project deadlines without compromising on the quality of our products.

→ **Customer-Centric Approach**

We prioritize customer satisfaction by offering personalized consultation, a wide range of customization options, and ongoing support throughout the project lifecycle.

Residential Cast Stone Solutions

Architectural Stone Restoration

At Crestone Studio, we specialize in architectural stone restoration, carefully restoring stone elements that have stood the test of time—whether for decades or over a century. We focus on bringing these pieces back to their original beauty while maintaining their historical value. Each restoration not only restores the stone's aesthetic but also honors the craftsmanship and history behind it. Our architectural stone restoration process emphasizes careful, detailed repair, preservation, and enhancement of stone elements that have weathered over time. Our goal is to protect the original design and structural integrity while enhancing the durability of the stonework. From reviving weathered facades to restoring intricate stone carvings on heritage buildings, we employ expert techniques to preserve historical landmarks and architectural treasures throughout New York City.

SERVICES

Custom Cast Stone Fabrication

At Crestone Studio, we specialize in custom stone fabrication, transforming raw materials into bespoke pieces that enhance the appearance and functionality of any space.

Custom cast stone fabrication is the process of shaping and crafting cast stone to meet your design specifications, resulting in the creation of unique, one-of-a-kind pieces.

Our team at Crestone Studio uses cast stone made from cement, natural sand, and other aggregates such as mineral pigments, offering custom solutions for both residential and commercial projects.

Whether you're seeking custom countertops, intricate sculptures, or detailed architectural elements, we combine traditional craftsmanship with modern techniques to bring your unique vision to life. Every piece is carefully crafted to meet the specific requirements of your project, guaranteeing quality results that stand the test of time.

Custom Precast Fabrication

At Crestone Studio, our team of artisans specializes in delivering high-quality custom precast services, bringing your architectural designs to life with precision and care. Custom pre-casting involves creating architectural elements such as facades, medallions, trims, and decorative features. We design molds tailored to your project's unique needs.

Precast components are known for their strength, customization, and ability to support complex designs that demand precision and consistency. Using advanced casting techniques and premium materials, each piece is crafted to your exact specifications. Whether you're working on a historical restoration or a new construction project, our custom precast solutions offer durability, beauty, and versatility for a wide range of architectural applications.

Residential Cast Stone Solutions

Outside of our commercial work, we are proud to offer residential services that make your home stand out. Enhance your property with custom-crafted cast stone pieces that are lightweight, unique, and durable. Whether you're looking for columns, balustrades, entryways, fountains, or garden sculptures, our expert craftsmanship ensures every element is tailored to your specifications. Trust our team to craft high-quality cast stone pieces that enhance both your home's value and architectural style, while offering durability that lasts for years.

PROJECTS

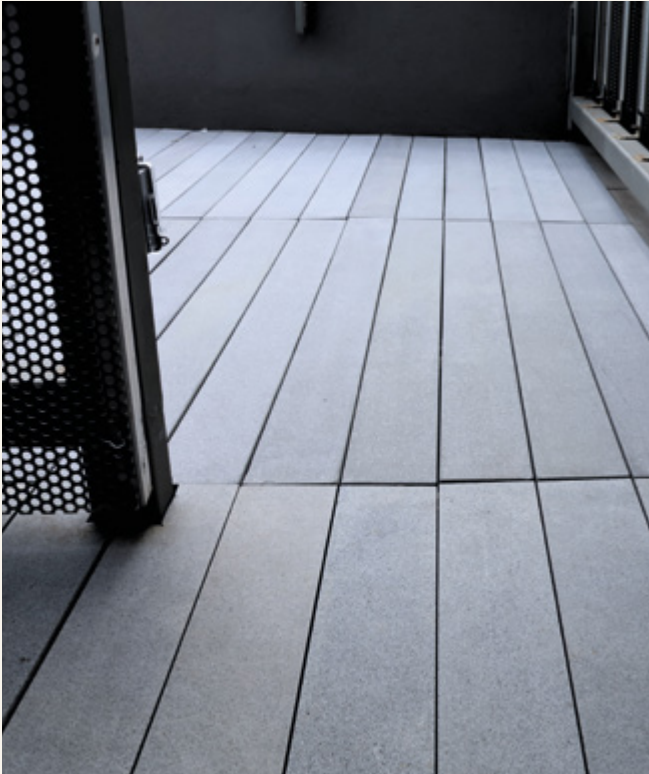

895 Park Avenue, New York

Constructed in 1930, this historic pre-war cooperative required the replacement of several coping stones and ornamental medallions that surround the building. Our team was tasked with creating custom molds to replicate these intricate details with precision. Each piece was carefully crafted to ensure a seamless fit between the new cast stone and the original natural stone, preserving the architectural integrity of the building.

Scope of Work

Mold Fabrication, Custom Casting Techniques, Cast Stone Medallion Fabrication, Replication of Cast Stone Units, Coping Stone Replication, Replication of Architectural Features

210 Pacific Street, New York

Nestled in Cobble Hill, 210 Pacific Street is an exceptional building, featuring its more than 13,000 custom brass 3D tiles adorning its façade. Our team had the privilege of crafting cast stone pavers for the building's rooftop patio. Designed specifically to fit the space, the pavers underwent an acid-washing process to match the existing ones, ensuring a seamless result.

Scope of Work

Mold Fabrication, Custom Casting, and Paver Fabrication

117 East 72nd Street, New York

This Upper East Side 1920s cooperative, situated between Madison Avenue and Park Avenue, underwent a careful restoration. Our team at Crestone Studio was proud to provide cast stone solutions, restoring several key elements of the building's façade, including cast stone copings and windowsill replacements.

Scope of Work

Coping Replacement & Windowsill Replacement

924 West End Avenue (The Clebourne), New York

Located on the Upper West Side, The Clebourne is a century-old landmark renowned for its stunning Italian Renaissance design and distinctive geometric shape. Our team carefully crafted cast stone replacements, restoring strength and durability to weathered or damaged stones, while preserving the building's original beauty.

Scope of Work

Architectural Stone Restoration, Cast Stone Replacement

285 Central Park West (The St. Urban), New York

Located on the Upper West Side, 285 Central Park West—also known as The St. Urban—is an iconic cooperative building completed in 1905. Our team took on key aspects of the restoration, focusing on recreating worn and damaged terra cotta elements using custom-cast stone. This process included acid washing and glazing the pieces to ensure a seamless blend with the original materials. Additionally, we fabricated bespoke cast stone replacements to restore areas affected by natural wear and aging.

Scope of Work

Cast Stone Replacement of Terra Cotta Elements, Acid Washing and Glazing of Stones, Architectural Stone Restoration

8 East 41st Street, New York

Built in 1921, this commercial building stands as a striking contrast to the surrounding high-rise structures. Its Gothic architectural style, highlighted by intricately designed gargoyles, makes it a truly unique and defining feature of the city's skyline. Our team was trusted with restoring the gargoyles and reconstructing ornamental stone elements, trims, and parapets, as well as replacing the windows with custom cast stone.

Scope of Work

Cast Stone Replacement Services for Architectural Stone, Reconstruction of Parapet Wall, Gargoyle Reconstruction, Trim Replacement Around Windows and Façade, Trim Replacement Throughout the Building Façade

850 Park Avenue, New York

Located on the Upper East Side, 850 Park Avenue is a historic prewar cooperative. With over a century of history, this 1914 building stands as a remarkable testament to the city's rich architectural past. To preserve its integrity, our team provided custom cast stone fabrication and crafted cast stone coping as integral parts of the restoration process.

Scope of Work

Custom Cast Stone Fabrication, Architectural Restoration,
Cast Stone Coping Fabrication

867 Madison Avenue (Gertrude Rhinelanders Waldo House), New York

Now home to Ralph Lauren's flagship store, 867 Madison Avenue is both a NYC-designated landmark and listed on the National Register of Historic Places. As part of an extensive restoration of this century-old mansion, our team was tasked with replacing the roof coping stones with custom cast stone, as well as replacing coping caps and selectively restoring areas of natural stone with cast stone. This project was particularly special due to the historical and cultural significance of the space. It stands as a prime example of how cast stone can play a crucial role in preserving these important structures, ensuring their stability and durability while maintaining their aesthetic beauty.

Scope of Work

Custom Cast Stone Replication, Architectural Restoration, Cast Stone Coping Fabrication, Replacement of Coping Caps on the Roof

39 East 79th Street, New York

UPPER EAST SIDE BEAUX-ARTS RESTORATION

Located just one block from Madison Avenue, this century-old Beaux-Arts style building on the Upper East Side required a careful restoration to preserve its architectural integrity. Our team assisted with the restoration by fabricating various cast stone elements, including cast stone replication, custom fabrication, and the replacement of coping stones.

Scope of Work

Cast Stone Replication, Cast Stone Coping Stones, and Custom Cast Stone Fabrication

150 Central Park South, New York

ARCHITECTURAL RESTORATION

150 Central Park South, also known as Hampshire House, is an iconic New York City landmark, renowned for its steeply pitched, patinaed copper roof and impressive 37-story height. Built in 1938, this nearly century-old structure is a significant part of the city's skyline. Crestone is proud to have contributed to its preservation by supplying custom cast stone coping stones and windowsills. Our team crafted custom molds to ensure a perfect fit, preserving the building's original beauty and architectural integrity.

Scope of Work

Cast Stone Coping Stones, Cast Stone Windowsills, Custom Stone Fabrication, Architectural Restoration Using Cast Stone

1 West 29th Street (Marble Collegiate Church), New York

Built in the mid-19th century, Marble Collegiate Church is an iconic New York City landmark. Known for its beautiful white marble, it stands out as a beautiful piece of architecture beyond its historical significance. Listed on the National Register of Historic Places, the church is currently undergoing restoration. Crestone is proud to contribute to this preservation effort. Our team fabricated custom cast stone windowsills, parapet wall copings, and band stones, helping to preserve the church's timeless beauty and ensure its enduring durability.

Scope of Work

Cast Stone Windowsill Fabrication, Cast Stone Parapet Wall Coping Fabrication, Cast Stone Band Stone Fabrication

75 Kent Street, New York

At 75 Kent Street, home to Nova Construction Services, we were tasked with crafting a custom cast stone staircase that complements the office's recent modern extensions and design upgrades. Using high-quality cast stone and a meticulous acid-washing technique, we were able to deliver a tailored solution that enhances the contemporary aesthetic of the space while maintaining functionality and durability.

Scope of Work

Custom Cast Stone Fabrication, Acid Washing and Glazing of Stones
